MONTE VISTA WATER DISTRICT HOLDS SPECIAL RECOGNITION EVENT IN CELEBRATION OF 90 YEARS OF SERVICE

MONTCLAIR, CA Wednesday night Monte Vista Water District concluded its 90th anniversary festivities with a commemorative board meeting that capped off a year-long celebration focused on customer appreciation, employee recognition and community outreach. The event highlighted the district's accomplishments since its founding in 1927 and placed special attention to customer and employee appreciation.

"This community has been an integral part in developing the district's foundation and growth over the last 90 years," stated President of the Board of Directors Sandra Rose. "It is only fitting that we celebrate this milestone with those who have contributed to its successes." she said. "Together, we have accomplished nearly a century of service and look forward to providing our customers with safe and reliable water supplies for many years to come."

The intimate event featured presentations by the county board of supervisors, Assemblymember Freddie Rodriguez's office, surrounding agency elected officials and general managers who congratulated the district for its anniversary milestone and the outstanding service it provides to the community it serves. Also in attendance were current and retired district employees and board members.

General Manager Mark Kinsey provided an overview of the district's anniversary activities throughout the past year, as well as a look at current and upcoming facility innovations which include water quality treatment facilities and a main office facility upgrade.

“We continue to reflect on our history and build for our future,” said Mark Kinsey, general manager of MVWD. “Since its founding, the district’s prudent and innovative planning has allowed it to grow into a multi-faceted agency that delivers domestic and recycled water for irrigation purposes, promotes water use efficiency, and has positioned itself as a leader in water resource management in the region.

As part of the year-long anniversary celebration, MVWD launched a Customer Recognition Program earlier this year that recognized standout customers who have implemented water saving practices in their homes or businesses.

In addition to the program, MVWD gave away a high-efficiency toilet per month to one of its Facebook followers beginning Nov. 2017. Finally in late spring, the agency awarded five district customers with a high efficiency home retrofit that included a clothes washer, up to two toilets, indoor fixtures and a weather-based irrigation controller with sprinkler nozzles.

Monte Vista Water District was declared duly incorporated on August 22, 1927. The agency provides retail and wholesale water services to a population of more than 130,000 people in the communities of Montclair, Chino Hills and portions of Chino. For more information on the district’s history and accomplishments over the last 90 years, visit www.mvwd.org.
